No Shadow of a Doubt Dec 30 2019 On their 100th anniversary, the story of the extraordinary scientific expeditions that ushered in the era of relativity In 1919, British scientists led extraordinary expeditions to Brazil and Africa to test Albert Einstein's revolutionary new theory of general relativity in what became the century's most celebrated scientific experiment. The result ushered in a new era and made Einstein a global celebrity by confirming his dramatic prediction that the path of light rays would be bent by gravity. Today, Einstein's theory is scientific fact. Yet the effort to weigh light by measuring the gravitational deflection of starlight

during the May 29, 1919, solar eclipse has become clouded by myth and skepticism. Could Arthur Eddington and Frank Dyson have gotten the results they claimed? Did the pacifist Eddington falsify evidence to foster peace after a horrific war by validating the theory of a German antiwar campaigner? In *No Shadow of a Doubt*, Daniel Kennefick provides definitive answers by offering the most comprehensive and authoritative account of how expedition scientists overcame war, bad weather, and equipment problems to make the experiment a triumphant success. The reader follows Eddington on his voyage to Africa through his letters home, and delves with Dyson into how the complex experiment was accomplished, through his notes. Other characters include Howard Grubb, the brilliant Irishman who made the instruments; William Campbell, the American astronomer who confirmed the result; and Erwin Findlay-Freundlich, the German whose attempts to perform the test in Crimea were foiled by clouds and his arrest. By chronicling the expeditions and their enormous impact in greater detail than ever before, *No Shadow of a Doubt* reveals a story that is even richer and more exciting than previously known.

Dark Shadows Mar 13 2021 *Dark Shadows* is a compelling portrait of Kazakhstan, a country that is little known in the West. Strategically located in the heart of Central Asia, sandwiched between Vladimir Putin's Russia, its former colonial ruler, and Xi Jinping's China, this vast oil-rich state is carving out its place in the world as it contends with its own complex past and present. Journalist Joanna Lillis paints a vibrant picture of this emerging nation through vivid reportage based on 13 years of on-the-ground coverage, and travels across the length and breadth of this enigmatic country that lies along the ancient Silk Road and at the geopolitical and cultural crossroads where East meets West. Featuring tales of murder and abduction, intrigue and betrayal, extortion and corruption, this book explores how a president, Nursultan Nazarbayev, transformed himself into a potentate and the economically-struggling state he inherited at the fall of the USSR into a swaggering 21st-century monarchy. A colourful cast of characters brings the politics to life: from strutting oligarch to sleeping villagers, from

principled politicians to striking oilmen, from crusading journalists to courageous campaigners. Traversing dust-blown deserts and majestic mountains, taking in glitzy cities and dystopian landscapes, Dark Shadows conjures up Kazakhstan as a living, breathing place, full of extraordinary people living extraordinary lives.

In the Shadow of the Bridge Aug 18 2021 "This tender memoir" by the Rome Prize-winning novelist revisits the bohemian era of downtown Manhattan in a tale of love, art, and the AIDs crisis (Publishers Weekly). From the 1950s through the 1970s, downtown Manhattan was a hotbed of creative life where artists and writers were free to explore ideas and push boundaries.

As a young man, celebrated author and playwright Joseph Caldwell arrived from Milwaukee to become one of the original pioneers of New York's gay bohemian community. In this charming, brutally candid memoir, Caldwell describes his tenure working at the venerated classical music station WQXR, marching in civil protests and being arrested, his evolution as a writer, and his many accomplished acquaintances. Opening with a tender and intimate moment he shared with photographer William Gale Gedney on the Brooklyn Bridge in 1959, Caldwell charts the course of his quixotic pining for him across three decades. But by the early 1980s, the AIDS epidemic terrorizes New York, and the atmosphere of free love and sex is replaced by unrelenting fear. In a tragic twist of fate, Caldwell is finally reunited with Gedney to care for him as he is ravaged by the disease. "[Joseph Caldwell's] intimate portrait of gay life in New York City before Stonewall is an important addition to LGBTQ history." —Peter Cameron, author of *Someday This Pain Will Be Useful to You* "[A] brief yet rich, meditative memoir about a talented Midwestern transplant trying to make his mark on New York City . . . A simultaneously tragic and uplifting story of enduring love." —Kirkus Reviews

precipitous entry onto the international stage, Aperture is delighted to publish Illuminance, the latest volume of Kawauchis work and the first to be published outside of Japan. Kawauchis work has frequently been lauded for its nuanced palette and offhand compositional mastery, as well as her ability to incite wonder via careful attention to tiny gestures and the incidental details of her everyday environment. In Illuminance, Kawauchi continues her exploration of the extraordinary in the mundane, drawn to the fundamental cycles of life and the seemingly inadvertent, fractal-like organization of the natural world into formal patterns. This impressive compilation of previously unpublished images is proof of Kawauchis unparalleled, unique sensibility and her on-going appeal to the lovers of photography.

But at last Pete Lyons, who was there in the day, lifts the veil from this secretive man and the innovative, extraordinary, magnificent racing cars and world-class team he created.
