The Dickens Advertiser Jun 03 2020 Many of Dickens' novels were published serially, in monthly parts, & the appearance of these installments was eagerly awaited. Today the advertisements, published along with the monthly parts, are no less interesting than the novels themselves for being a mirror of the tastes of the Victorian England which subscribed to Mr. Dickens's monthly installments.

STORIES FROM HANS CHRISTIAN ANDERSEN - 7 Illustrated Children's stories from the Master Storyteller Dec

30 2019 In this volume you will find 7 children's stories by the master story-teller - Hans Christian Andersen. These 7 stories are accompanied by 28 exquisite colour plates by another master, Edmund Dulac. Included in this volume are The Mermaid, on which the famous statue is based and The Emperor's New Clothes which is always sure to make children giggle. Fancy, and emperor walking around with no clothes on. How rude! Andersen believed that wherever there are children, fairy tales will be read and loved. He was right then and he is still right today. The tales in this volume are: The Snow Queen The Nightingale The Real Princess The Garden Of Paradise The Mermaid The Emperor's New Clothes The Wind's Tale The power of his tales to charm and elevate runs like a living thread through whatever he writes. In the two books, the first of which is presented here, they have met the tests and held an undiminishing popularity among the best children's books. They have set the standard, and their place in permanent literature will grow wider and more secure as time passes. Only a few children's authors will be ranked among the Immortals, and Hans Andersen is without a doubt one of them. It adds a charm to the little stories of these two volumes to know that the genial author travelled widely for a man of his time and everywhere he went he was urged to tell the tales himself. Even though he had become world famous, he did with equal measures of charm and grace in the kitchens of the humble and in the courts of nobles and palaces of kings.

The Hard Parts Nov 28 2019 The remarkable and inspirational story of Oksana Masters, who was born with radiation-induced birth defects and suffered appalling abuse as an orphan, before being adopted and moving to the US, where she went on to triumph over her challenges to win seventeen Paralympic medals in four different sports. Oksana Masters was born in the shadow of Chernobyl, with one kidney, a partial stomach, six toes on each foot, webbed fingers, no right bicep and no thumbs. Her left leg was six inches shorter than her right, and she was missing both tibias. Relinquished to the orphanage system by birth parents daunted by the staggering cost of their child's medical care, Oksana encountered numerous abuses, some horrifying. Salvation came at the age of seven when Gay Masters, an unmarried American professor who saw a photo of the little girl and became haunted by her eyes, waged a two-year war against stubborn adoption authorities to rescue Oksana from her circumstances. In America, Oksana endured years of operations that included a double leg amputation. Still, how could she hope to fit in when there were so many things making her different? As it turned out, she would do much more than fit in. Determined to prove herself and fuelled by a drive to succeed that still smouldered from childhood, Oksana triumphed in not just one sport but four - winning against the world's best in rowing, biathlon, cross-country skiing and road cycling competitions. This is Oksana's astonishing story of journeying through a series of dark tunnels - and how, with her mother's love, she finally found her way into the light. Her message to anyone who doesn't fit in: you can find a place where you excel and where you have worth.
