Debs analyzes the classical Islamic law of property based on the Shari'ah, traces its historic development in Egypt, and describes its integration as a source of law within the modern format of a civil code. He focuses specifically on Egypt, a country in the Islamic world that drew upon its society's own vigorous legal system as it formed its modern laws. He also touches on issues that are common to all such societies that have adopted, either by choice or by necessity, Western legal systems. Egypt's unique synthesis of Western and traditional elements is the outcome of an effort to respond to national goals and requirements. Its traditional law, the Shari'ah, is the fundamental law of all Islamic societies, and Debs's analysis of Egypt's experience demonstrates how Islamic jurisprudence can be sophisticated, coherent, rational, and effective, developed over centuries to serve the needs of societies that flourished under the rule of law. This second edition of 'The Civil Code of the Netherlands' will be an invaluable tool for lawyers, businessmen and students in their practice of, research or study into Dutch Law. The first edition, published in 2009, reflected the Civil Code as in effect on 1 October 2008. Since then it has been supplemented by significant new statutory provisions, the most important of which is the addition of Book 10 (Private International Law), which entered into force on 1 January 2012. The translators, who continually strive to update, improve and

modernise their translation, are Hans Warendorf, a Dutch advocaat and former senior partner of a leading Dutch law firm; Richard Thomas, a solicitor of the Supreme Court of England & Wales and London partner of the international law firm Vedder Price, both experienced cross-border legal practitioners who have worked together as a translation team for more than twenty years. Document from the year 2015 in the subject Law - Comparative Legal Systems, Comparative Law, , language: English, abstract: On December 08, 2007 the new Civil Code of Cambodia was promulgated by Royal Kram No NS/RKM/1207/030. Together with the Criminal Code, the Civil Procedure Codes, and the Criminal Code it was defined as both a fundamental law as well as a strategic objective of the Council for the Legal and Judicial Reforms. This legislation was part of the first phase of the "Plan of Action for Implementing the Legal and Judicial Reform Strategy" which was implemented by the Royal Government of Cambodia on 29 April 2005. The impetus for the Cambodian government to set out a policy on legal and judicial reform came from the plan to enter WTO. Due to the fact that most of the legal provisions dealing with civil matters have been scattered and insufficient, a compilation of those legal texts followed by updated provisions was required. This was the impetus for drafting a new Civil Code with a unified, consistent, and complete set of civil laws. This is why the Civil Code has become the core piece of legislation in the private law sector regulating the most areas of private life, including business activities and property rights. Uzbekistan was the first of the CIS countries to formulate and adopt a new Civil Code. The initial Civil Code came into force on March 1, 1997. Although based largely on the Russian Civil Code, the Uzbekistan Code has evolved its own distinct characteristics. This edition of William E. Butler's expert translation contains the latest revisions up to August 15, 1999. "A translation of the Civil Code of the Republic Kazakhstan, translated and edited by William E. Butler"-- This

volume contains the Turkmenistan Civil Code as adopted in December 1998. The translation by William E. Butler is based on the official text and any differences with the Russian language version are noted in footnote annotations. The Turkmenistan Civil Code is unique in the CIS for incorporating as part of its official title the name of the President of Turkmenistan, Saparmurat Turkmenbashi. This gives the Civil Code a special symbolic value in the hierarchy of sources of Turkmenistan Law. Another important feature of the Civil Code is its lack of a section devoted to private international law, or 'conflicts of law'. Until this position is rectified or clarified, Turkmenistan law is the sole applicable law. Excerpt from *The New Japanese Civil Code: As Material for the Study of Comparative Jurisprudence; A Paper Read at the International Congress of Arts and Science, at the Universal Exposition, Saint Louis 1904* In responding to the call of the Committee of the Congress to deliver a lecture on Comparative Law, I have, for reasons which will not be far to seek, taken the new Japanese Civil Code as the subject of my discourse. If, at the outset, I may be allowed to use a paradoxical expression in characterizing that law-book, I should say that "the East and the West, the Past and the Present meet in the new Japanese Civil Code." I mean that the codification of private law in Japan was the result of the great political and social revolution, which followed the opening of the country and the introduction of Western ideas; so that the Code embodies in itself both archaic and modern elements on the one hand, and Oriental and Occidental elements on the other. It is, so to speak, a connecting link between the Past and the Present, between the East and the West, and stands at the cross-roads of historical and comparative jurisprudence. It is, on that account, peculiarly interesting to scientific jurists, as

supplying them with materials which few other systems can furnish. It will be my endeavour, in this lecture, to show the effect which the contact of the Western civilization with that of the East has produced on the civil law of the country, thereby illustrating some of the leading principles of the evolution of law by reference to the rules of the Code. The scope of my lecture being so wide, and the time for its delivery being limited, I shall confine myself to those characteristic features of the Code, which are not usually found in Occidental jurisprudence.
